REQUEST FOR PRODUCT FEEDBACK

We consider it important and valuable to get feedback on our products, because it not only helps us fine-tune future products, but it lets us know how you are being served with the product you are using, how you are using it and the results you are getting. Some of the feedback has been really detailed. If we choose to integrate your feedback into the information database available to people relative to experience with the product, know that your identity will be limited to initials and occupation/location in order to preserve your personal privacy. What you think and feel is very important to us, and we would be thrilled to hear from you. Please mail or fax this to us as soon as you have had time to evaluate how the product is assisting you in your life. Don't forget to include information on how often you use the product, and under what circumstances, and how it has helped you in your life and in what areas, no matter how subtle or profound. Thanks very much for your time.

Kathy and Jesse Grenier, Novus Research

DATE: _____
